

Leadership Education Provider Evaluation of the NEMSMA Accreditation Application Process Survey

The NEMSMA accreditation process is designed to provide an objective review of the instructional design of Paramedic Officer Accredited Leadership Education activities. The application process is designed to verify that the key elements of the educational planning, implementation, and evaluation process have been addressed by the Registered Leadership Education Provider (RLEP). Our goal is to keep the process as simple as possible while making sure that NEMSMA accreditation reviewers will be able to verify that the leadership educational offering has a sound educational design which corresponds to the NEMSMA Seven Pillars of National EMS Officer Competencies, and that appropriate steps have been taken to ensure effective implementation.
